3 Wall Cubic Yard Box

Cubic Yard Boxes are the industry standard for storage, transportation and disposal of solid hazardous or non-hazardous waste material. One box can hold the equivalent of four 55 gallon drums making them the most economical and efficient containers in the industry. Our containers ship and store flat to greatly reduce freight costs and warehouse storage space. Assembly is quick and can be done in minutes on the job site.

3 Wall Cubic Yard Boxes are constructed of rigid triple-wall corrugation and UN Approved for Packing Groups I, II and III (X-Rated Box). Our most popular box offers a flap style closure for easy assembly and handling. All Cubic Yard Boxes are shipped with high-density polyethylene inner liners and tested in accordance to meet all CFR-49 requirements.

Clean-Pak Flap Top

Clean-Pak Flap Top containers combine the convenience and savings of our cubic yard boxes with tough, moisture resistant polypropylene for an efficient outdoor solution for solid hazardous waste storage, transportation and disposal. Clean-Paks can hold as much as 3,000 lbs., replace (4) 55 gallon drums and can be stacked two high.

Clean-Sak

Clean-Sak containers combine the convenience and savings of our cubic yard boxes with tough, moisture resistant polypropylene for an efficient outdoor solution for solid hazardous waste storage, transportation and disposal. Clean-Saks can hold as much as 2,000 lbs.
